

# Riccardo Falco

Digital Management Student

## 1. Profile Summary

Motivated and curious professional with a strong passion for technology, medicine, and business. My aim is to contribute to making the world a better place by leveraging technology and data to create solutions with real social impact. I combine analytical thinking, strong data skills, and cross-disciplinary communication to work effectively with technical and non-technical stakeholders, and to contribute to meaningful, high-impact projects.

## 2. Work experience

- **INTERN - CEL SPA (2024).**

Administrative & Management Support: Assisted leadership with operational tasks and document management.

- **INTERN - MG BRIDGE CONSULTING (2023).**

Collaborated with traders and founders on daily operations, gaining deep insights into corporate finance, tax planning, and blockchain technology.

## 3. Education

- **LICEO G. COTTA – SCIENZE UMANE, OPZIONE ECONOMICO-SOCIALE**

High School Diploma, 100/100

Focused on economics, social sciences, law, statistics and philosophy, developing a strong foundation in critical thinking and socio-economic analysis.

- **CA' FOSCARI UNIVERSITY OF VENICE – H-FARM COLLEGE**

Bachelor's Degree in Digital Management (*ongoing*)

Interdisciplinary program combining business, technology, and innovation, with a focus on digital strategy, data-driven decision making, and entrepreneurship.

## 4. Projects

- **CORPORATE VOLUNTEERING SYSTEM – H-FARM WORKSHOP (WINNER)**

Led and contributed to a winning team project that designed an innovative corporate volunteering system based on structured feedback from FiberCop field operators. The project focused on collecting, analyzing, and organizing qualitative and quantitative data through an artificial intelligence-based algorithm, enabling companies to align volunteering initiatives with real operational and social needs while improving impact measurement and decision-making.
